Discover Bonanza Timberland

Located in the department of Córdoba, Colombia, at Bonanza Timberland, we combine a passion for wood and a commitment to sustainability. We specialize in transforming the highest quality teak wood into products that stand out for their beauty, durability, and environmental responsibility.

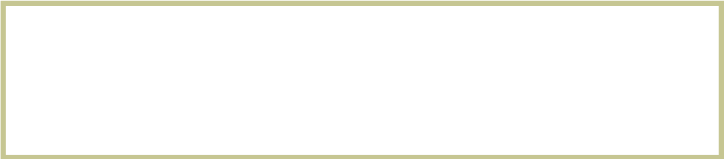

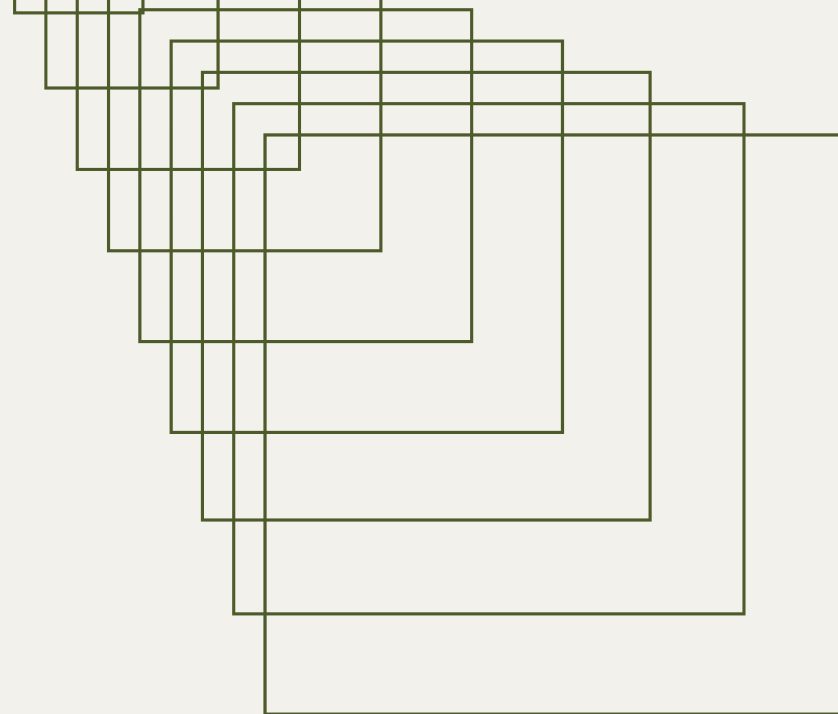

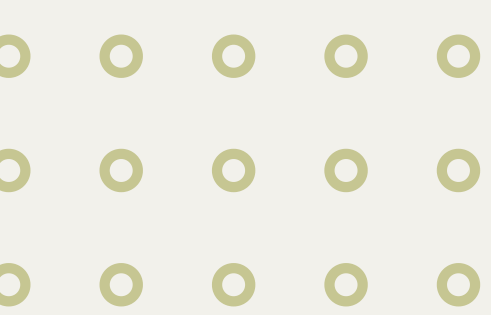

Commitment

Commitment to the Environment

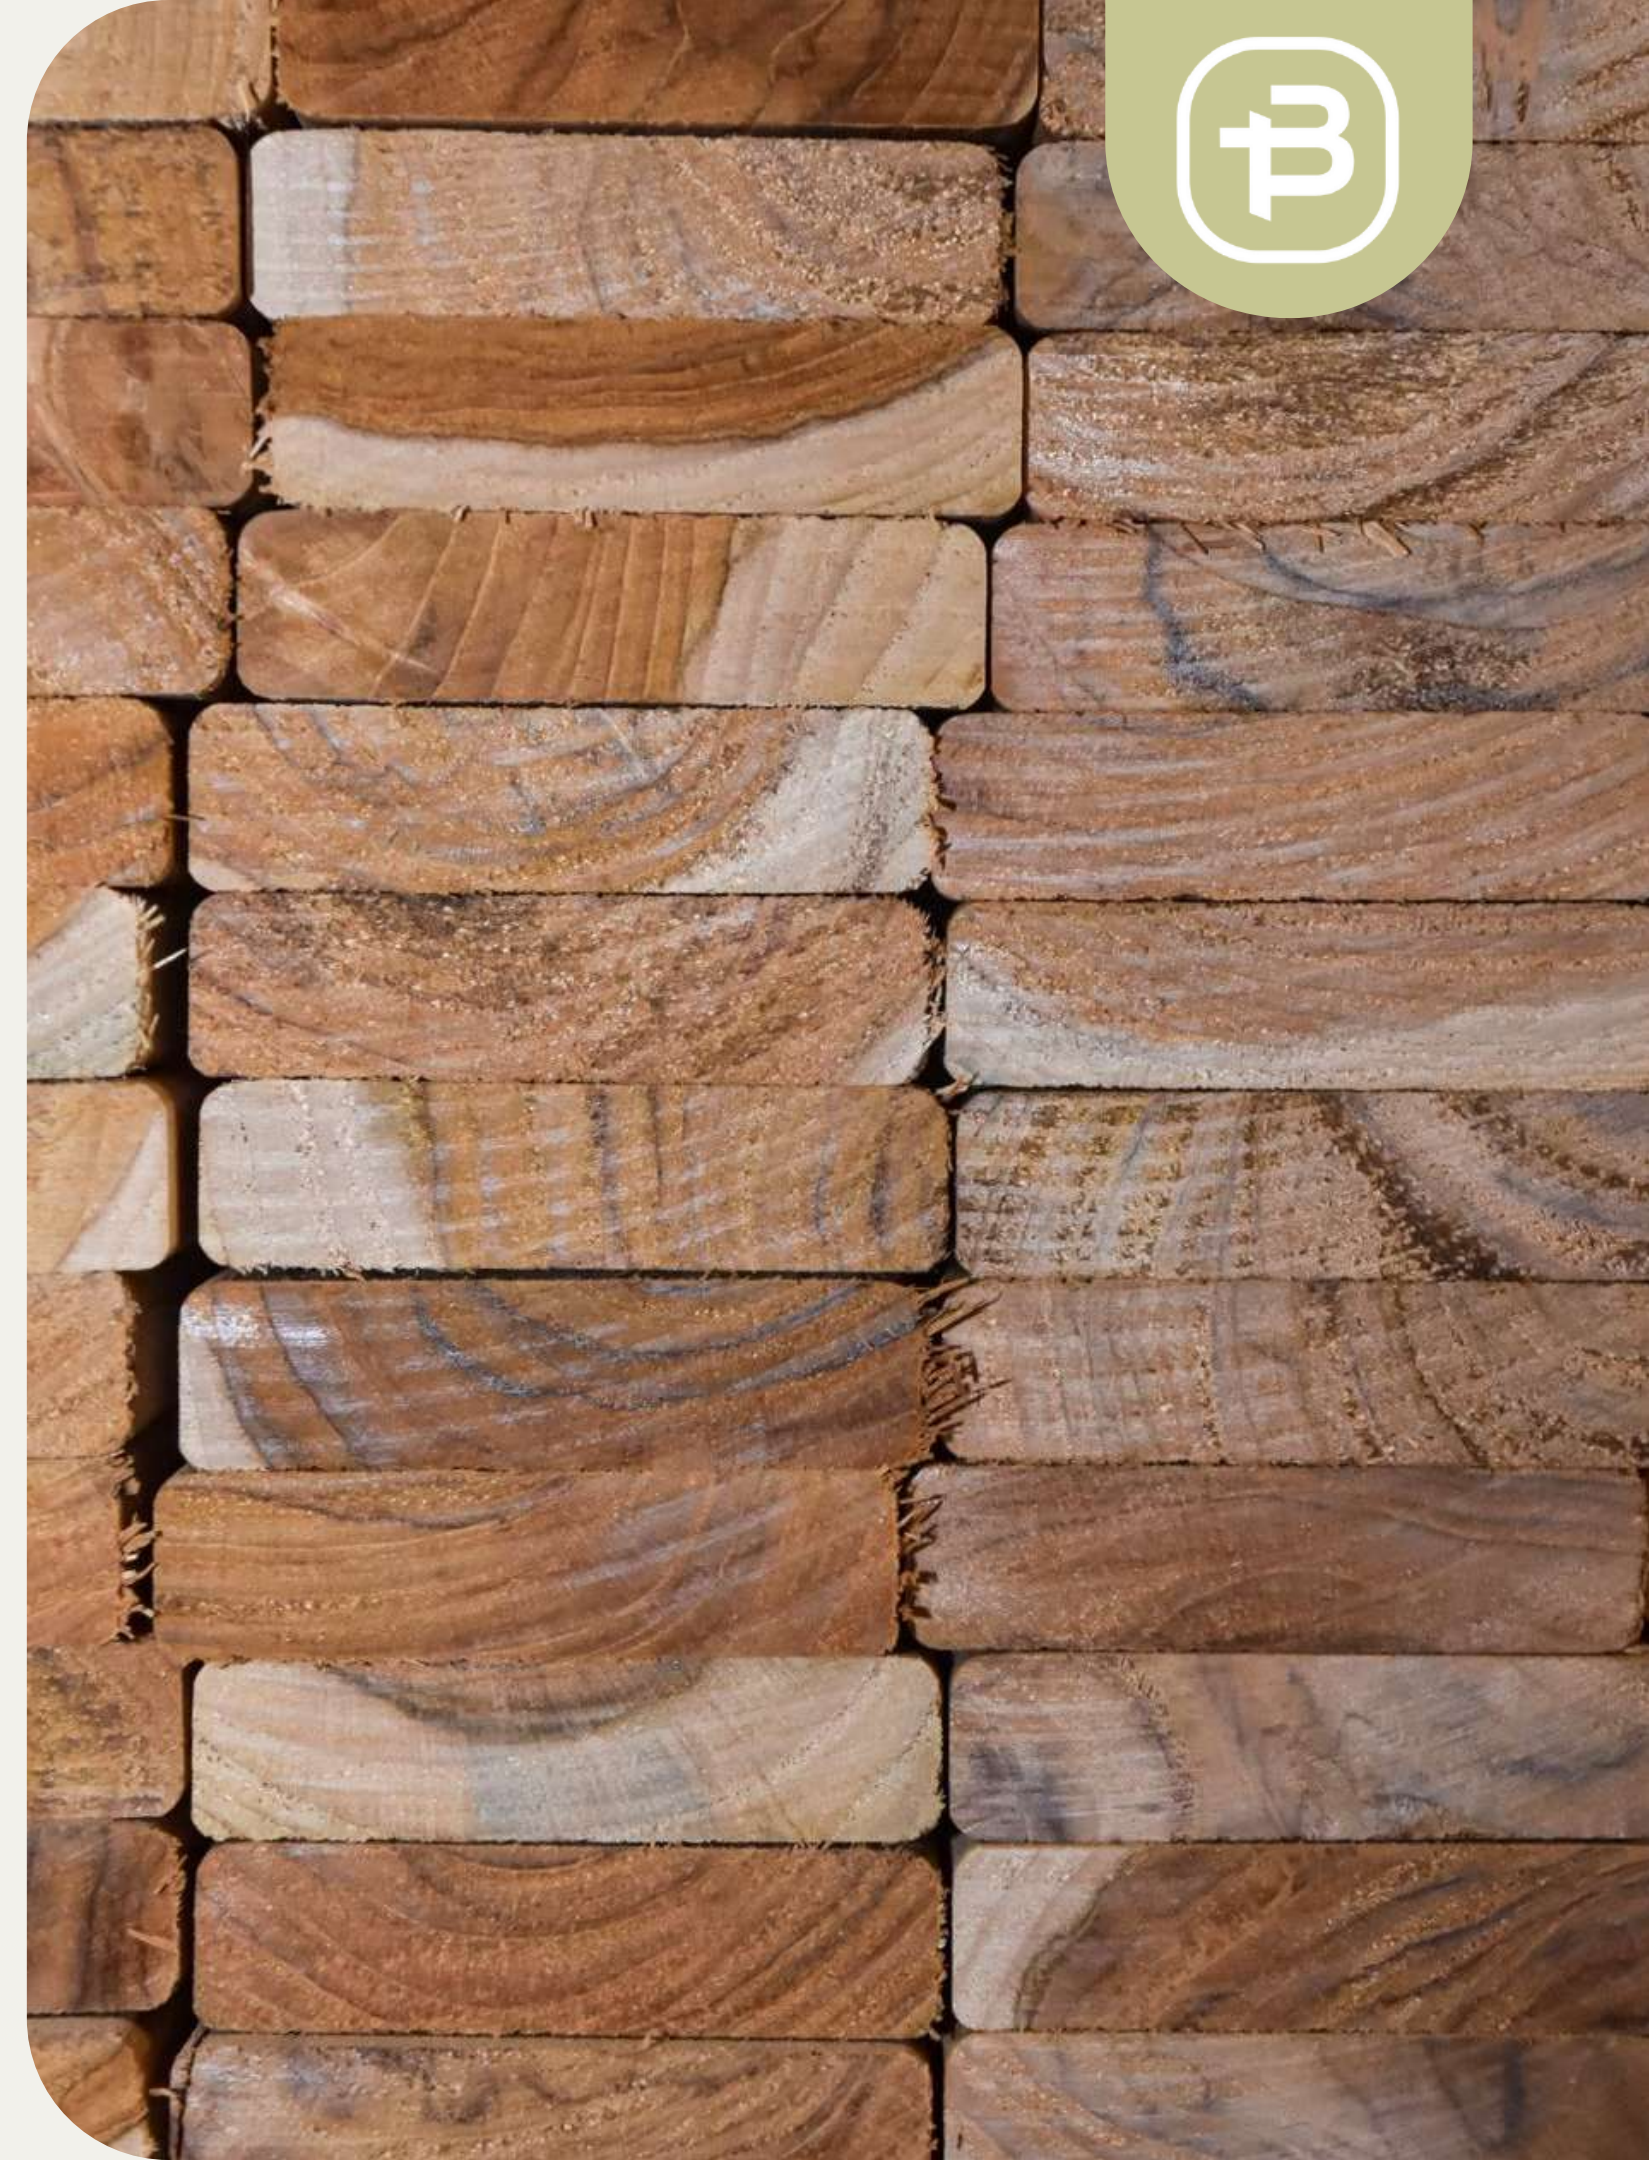

For us, sustainability is not just a word; it is the essence of everything we do. We use wood from reforested forests and apply responsible practices to ensure that every tree cut down is replaced, guaranteeing a prosperous future for our natural environment. Every piece of wood we offer is certified to ensure its legal origin and positive impact on the environment.

Our Products

Discover our **product portfolio**, specially designed to provide durability, elegance, and adapt to any type of project. Each category has been crafted to exceed expectations and deliver quality in every detail.

Deck

The teak deck is the perfect option for outdoor spaces that require a resistant and durable surface. Made from high-quality teak wood, this product offers excellent resistance to moisture, insects, and extreme weather conditions. With a brushed and beveled finish, the deck is ideal for creating cozy and elegant outdoor environments such as terraces, pool areas, saunas, and jacuzzis. Its versatile design allows it to adapt to any setting, providing a comfortable and attractive outdoor space.

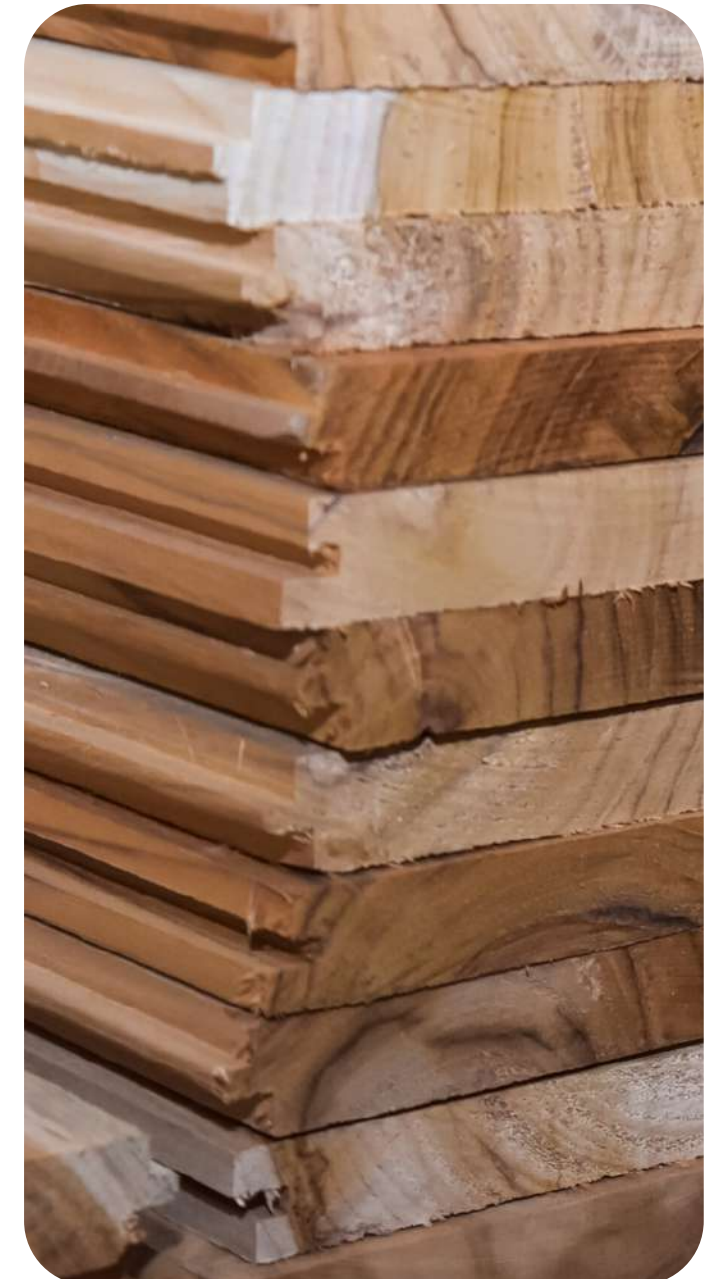

- Available Dimensions: Width 6 cm / 8 cm / 10 cm, length from 1 m to 2.5 m.
- Available Thicknesses: 18 mm / 20 mm.
- Finish: Brushed, beveled on 2/4 edges.
- Uses: Outdoor decks, terraces, furniture for saunas and jacuzzis.
- Benefits: Water and insect resistant, easy to maintain, provides a natural and sophisticated finish to outdoor spaces.

Floors

Designed for quick and easy installation, the Teak Floor combines the natural beauty of wood with the versatility of a floating installation system. This product is perfect for areas requiring flexible installation, offering a durable and attractive surface that brings warmth and comfort to any space.

- Available Dimensions: Usable width 12 cm, length 1.5 to 2.5 m.
- Available Thickness: 18 mm.
- Finish: Brushed, tongue and groove, suitable for floating installation on leveled, moisture-free surfaces.
- Uses: Ideal for indoor flooring in living rooms, dining rooms, bedrooms, and offices.
- Benefits: Easy and quick installation, adaptable to different surfaces, reduces impact noise, excellent thermal insulation.

Butcher Block Board

The teak butcher block board is composed of solid wood slats precisely joined together, creating a uniform and highly resistant surface. This type of board is valued for its stability, durability, and aesthetics, making it ideal for carpentry, construction, and interior design projects.

- Available Dimensions: 91 x 241 cm, 122 x 244 cm, 122 x 300 cm (with the option of custom sizes based on the project).
- Available Thicknesses: 12, 15, 18 mm.
- Finish: Sanded, raw, open-pore, Grade A on both sides, selected for its color contrast.
- Uses: This product is perfect for wall cladding, stair treads, kitchens, doors, floors, ceilings, furniture, closets, and wardrobes, both indoors and outdoors.
- Benefits: High moisture resistance, excellent dimensional stability, ease of installation and maintenance. The ideal choice for high-traffic projects or where premium quality is a necessity.

Premium Board

The Premium Teak Board is ideal for those seeking superior quality in their construction or decoration projects. Made with a carefully selected selection of the finest teak, this board uses Finger Joint techniques (visible or invisible) to maximize strength and stability. Available in various sizes and thicknesses, it offers a smooth and uniform surface, perfect for applications that require a refined, high-quality finish. This board not only provides an elegant and sophisticated aesthetic but also offers unmatched durability against wear, moisture, and temperature changes.

- Available Dimensions: 91 x 241 cm, 122 x 244 cm, 122 x 300 cm (with the option of custom sizes based on the project).
- Available Thicknesses: 12, 15, 18 mm.
- Finish: Sanded, raw, open-pore, Grade A on both sides, selected for its color contrast.
- Uses: This product is perfect for wall cladding, stair treads, kitchens, doors, floors, ceilings, furniture, closets, and wardrobes, both indoors and outdoors.
- Benefits: High moisture resistance, excellent dimensional stability, ease of installation and maintenance. The ideal choice for high-traffic projects or where premium quality is a necessity.

Rustic Board

Our Rustic Teak Board is perfect for those looking to highlight the natural beauty of wood. This board features unique characteristics and textures inherent to teak, with visible Finger Joint assembly that provides a rustic and authentic aesthetic. Its raw finish preserves all the natural details of the wood, offering an economical solution for decorative and interior projects that seek a more organic style. Ideal for interior cladding and furniture use, this board is a versatile option that adds warmth and character to any space.

- Available Dimensions: 91 x 241 cm, 122 x 244 cm, 122 x 300 cm (with the option of custom sizes based on the project).
- Available Thicknesses: 12, 15, 18 mm.
- Finish: Sanded, raw, open-pore; quality B and C, preserving the wood's natural details.
- Uses: Perfect for interior cladding, kitchens, doors, ceilings, and general furniture.
- Benefits: Cost-effective, natural appearance, easy to work with, ideal for decorative applications.

End Grain

Teak End Grain pieces are multi-dimensional wood blocks designed for high-impact decorative applications. These pieces are perfect for those seeking a unique design element that stands out for its natural beauty and premium finish. Thanks to their sanding process and raw, open-pore presentation, the end grains provide a natural look ideal for countertop cladding, bar tops, table tops, kitchen boards, and ornamental carpentry. Their versatility allows them to be adapted to any decorative need, whether in residential or commercial settings.

- Available Dimensions: 120 x 120 cm, 90 x 90 cm, 80 x 80 cm.
- Available Thicknesses: 25, 35, 45, 55 mm.
- Finish: Sanded, raw, open-pore; PREMIUM quality.
- Uses: Perfect for interior decoration, such as countertop cladding, table tops, kitchen boards, and ornamental carpentry.
- Benefits: Easy to work with, excellent decorative option, adaptable to multiple designs, high-quality finishes that enhance any space.

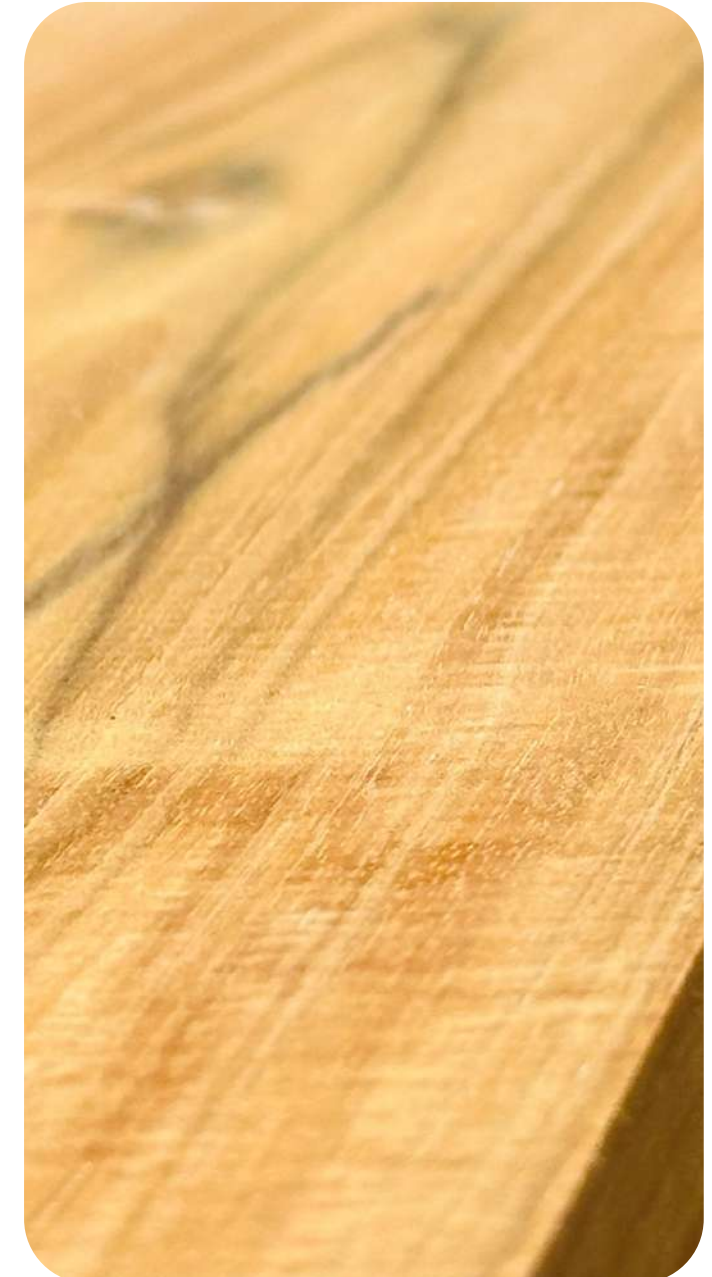

Boards and Planks

Unplaned teak boards and planks are a versatile and durable option for any carpentry or construction project. Available in a variety of widths and thicknesses, these boards provide an adaptable solution for various needs, from furniture and panels to flooring and decks. Their unplaned finish allows clients to choose their own surface treatment, providing maximum flexibility in design and application.

- Available Dimensions: Width from 14 cm to 22 cm; variable length.
- Available Thicknesses: From 30 mm to 60 mm.
- Finish: Unplaned.
- Uses: Furniture, panels, flooring, decks, general carpentry.
- Benefits: Excellent natural quality, easy to adapt to different projects, superior durability

Wood Slats

Teak slats are an excellent option for a variety of applications, both indoors and outdoors. Available in different widths, lengths, and thicknesses upon request, these slats are designed to provide flexibility and aesthetics for any project. Their brushed and beveled finishes ensure a polished look, while their natural weather resistance makes them ideal for outdoor applications. Perfect for furniture, cladding, shutters, pergolas, and more.

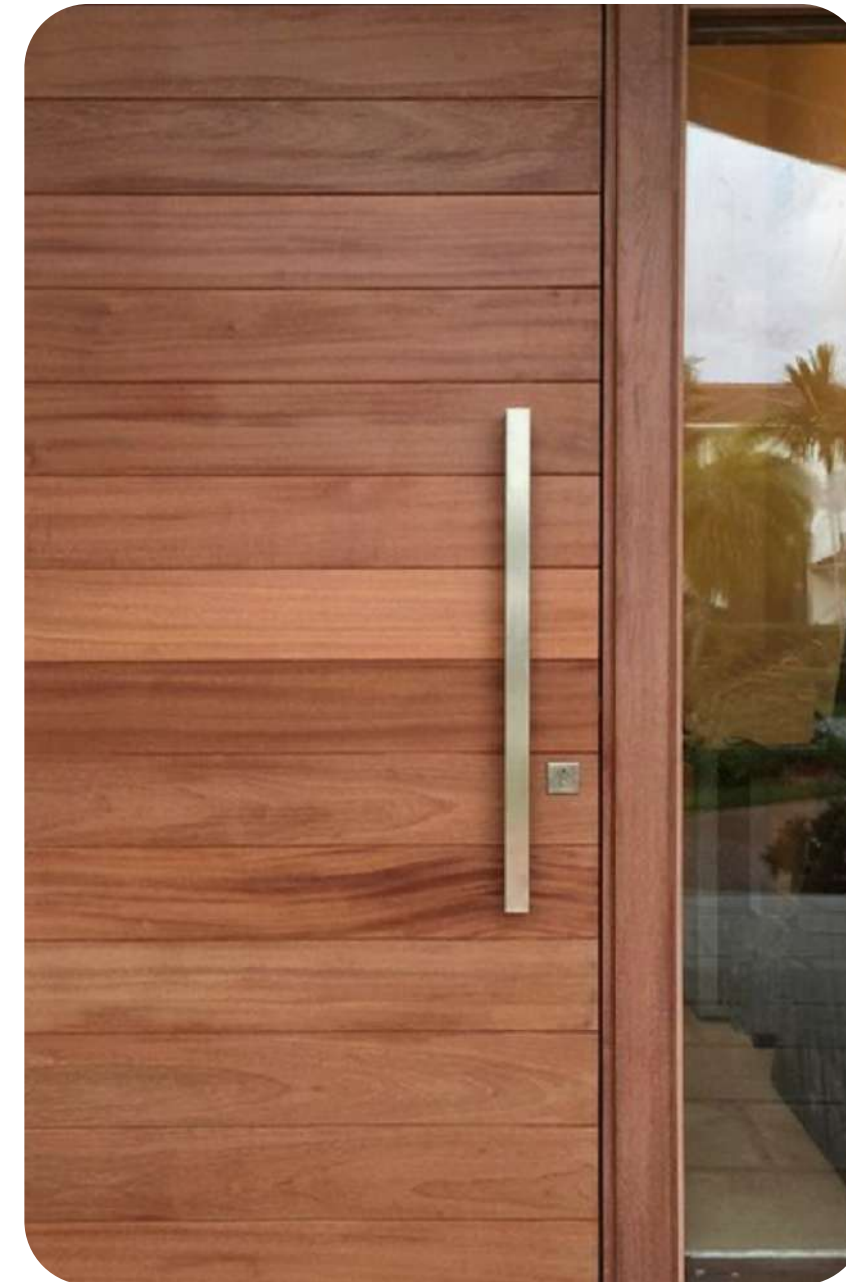

- Available Dimensions: Customizable upon request.
- Available Thicknesses: Customizable upon request.
- Finish: Brushed, beveled on 2/4 edges.
- Uses: Indoor and outdoor furniture, sauna and jacuzzi cladding, shutters, pergolas, sun loungers.
- Benefits: Design versatility, custom finish, high weather resistance.

Doors

Solid Panel Teak Doors are the perfect choice for main entrances of residences and high-end architectural projects. These solid wood doors offer a robust and natural aesthetic with options for customization in finishes and dimensions. In addition to their impressive visual presence, these doors provide excellent security and insulation, fitting perfectly into any architectural style. Available in various sizes, they combine functionality with the elegant design that teak brings to any environment.

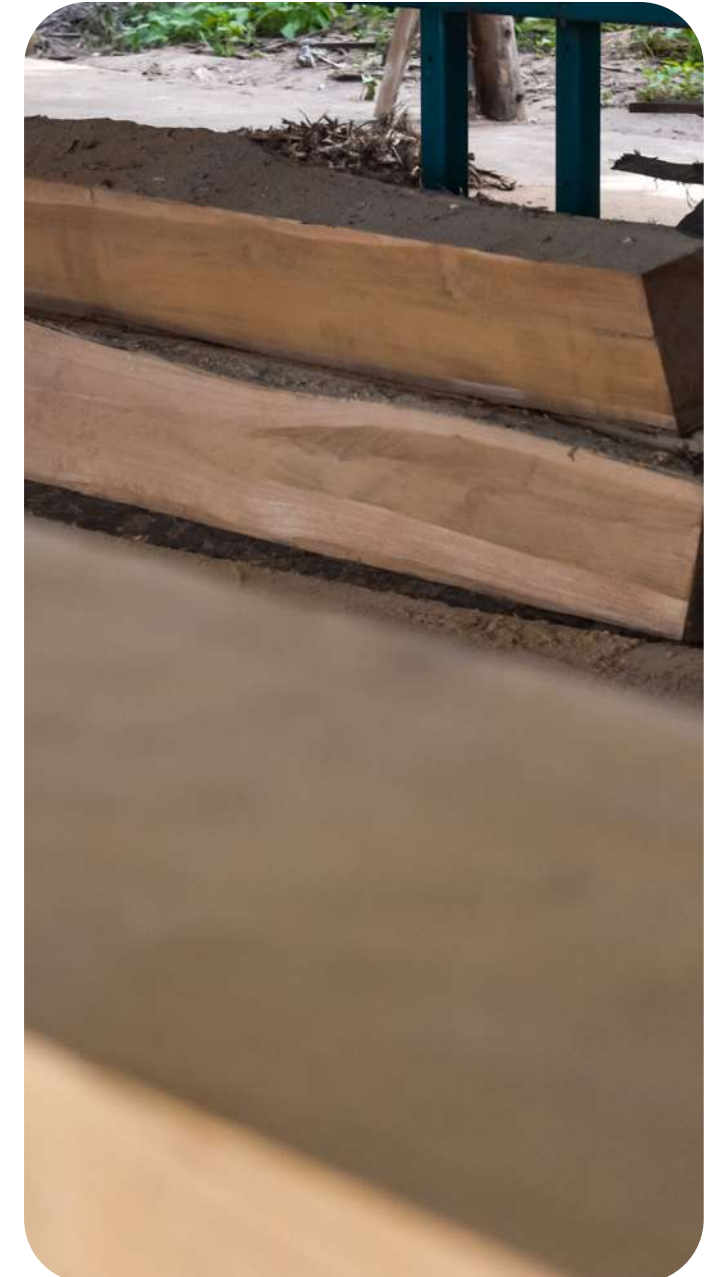

- Available Dimensions: Width from 80 cm to 250 cm; height up to 350 cm.
- Available Thicknesses: Door leaf from 4 to 8 cm; frame from 4 cm to 18 cm wall thickness.
- Finish: Raw, with options for painting and on-site installation.
- Uses: Main doors for residences, country houses, and condominiums.
- Benefits: High security, exceptional durability, natural aesthetics that bring warmth to any home.

Blocks

Wood blocks are versatile, durable, and offer ideal solutions for construction, furniture manufacturing, and other structural projects. Made from high-quality hardwoods, they are used in a wide variety of applications due to their durability, stability, and customization capabilities.

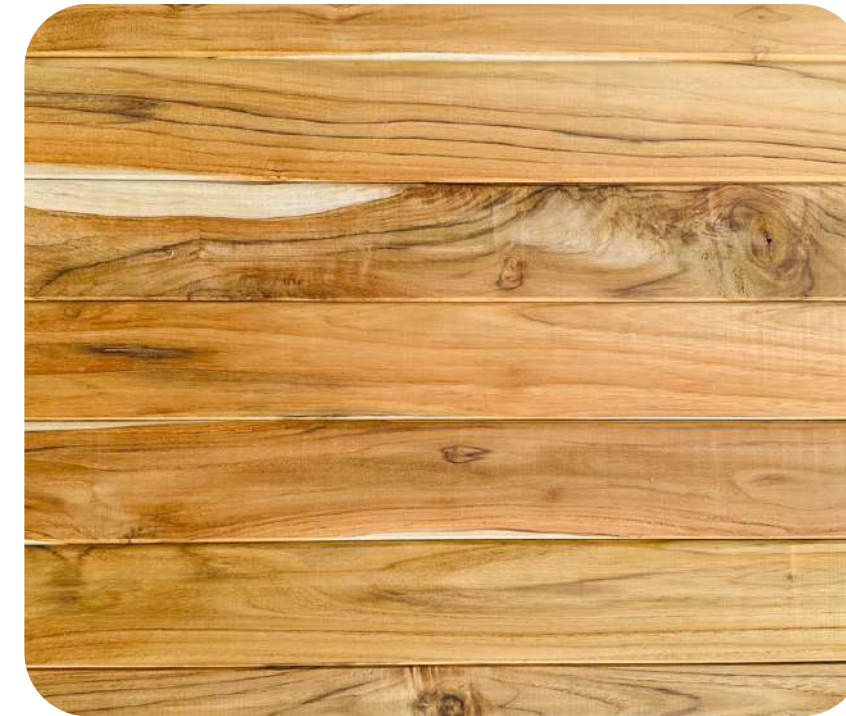

- Available Dimensions: Customizable upon request.
- Available Thicknesses: Customizable upon request.
- Finish: Wood blocks feature a natural and smooth surface, making them suitable for both rustic finishes and more refined polishing in decorative projects.
- Uses: Wood blocks are used in various projects, from structural construction to creating custom furniture. Their size and shape can be adapted to project needs.
- Benefits: Easy installation, design versatility, customizable finish, highly resistant to pressure, making them suitable for projects requiring strength and durability.

Tongue and Groove

Tongue and groove paneling is a wood cladding solution designed to provide an aesthetic, durable, and functional finish for ceiling construction. Made from high-quality wood, it is ideal for both interior and exterior ceilings, offering a natural appearance and excellent thermal and acoustic insulation.

- Available Dimensions: Width from 6 cm to 10 cm; length from 1 m to 2.5 m
- Available Thicknesses: 10 mm / 15 mm / 20 mm
- Finish: Brushed, molded
- Uses: Ideal for residential, commercial, and architectural projects seeking an aesthetic and durable finish. Commonly used for interior ceilings, pergolas, balconies, and outdoor structures requiring a natural and functional finish.
- Benefits: Provides an elegant finish, high moisture resistance, excellent dimensional stability, thermal and acoustic insulation, and ease of installation and maintenance.

Baseboards

Teak baseboards are an excellent choice for those seeking an elegant and functional finishing touch for their interiors. Designed to cover the joint between the floor and the wall, these baseboards not only enhance the aesthetics of any room but also provide protection against impacts and dirt. With brushed and molded finishes, these baseboards add a sophisticated and clean touch to any space, perfectly matching other wood elements.

- Available Dimensions: Width from 6 cm to 12 cm; length from 1 m to 2.5 m.
- Available Thicknesses: 10 mm / 15 mm.
- Finish: Brushed, molded.
- Uses: Baseboard or skirting board for interiors.
- Benefits: Provides an elegant finish, additional protection, and is easy to install.

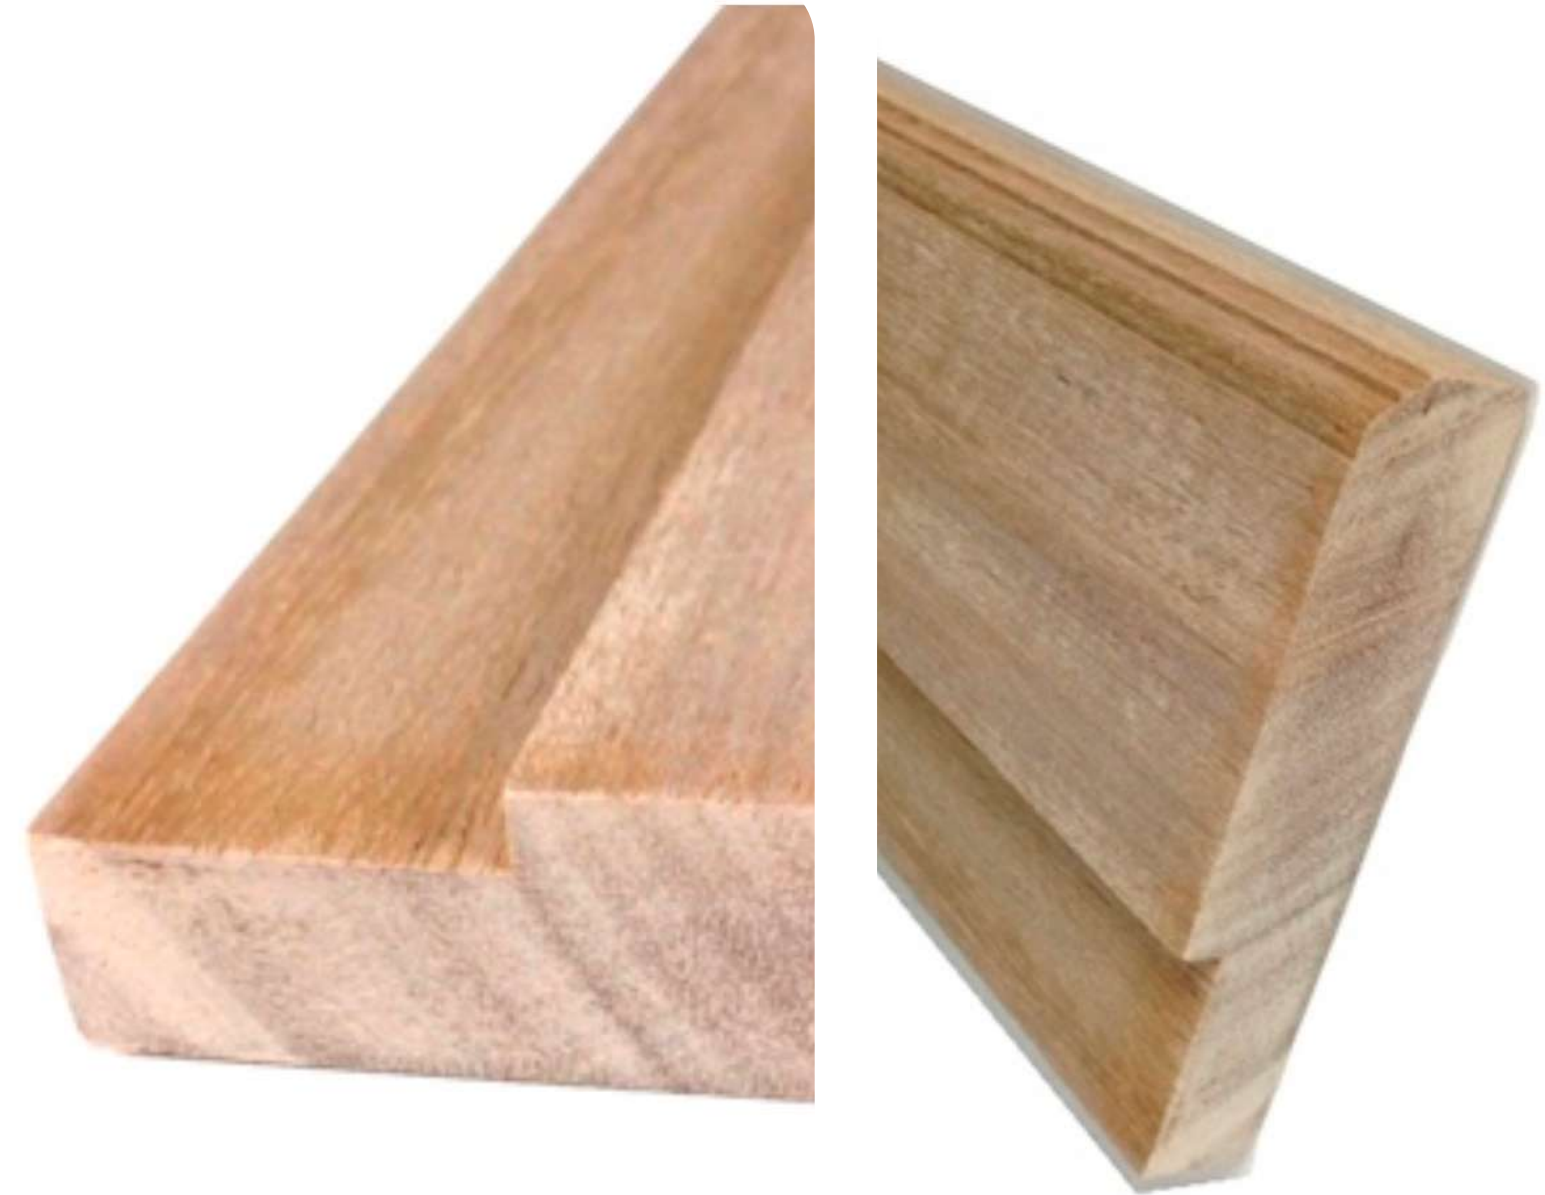

Frames

Wood frames are essential elements in construction and design, providing firm and aesthetic support for various applications such as doors, windows, mirrors, and picture frames. Made from high-quality wood, these frames combine functionality with an elegant and natural appearance, making them perfect for any residential or commercial setting.

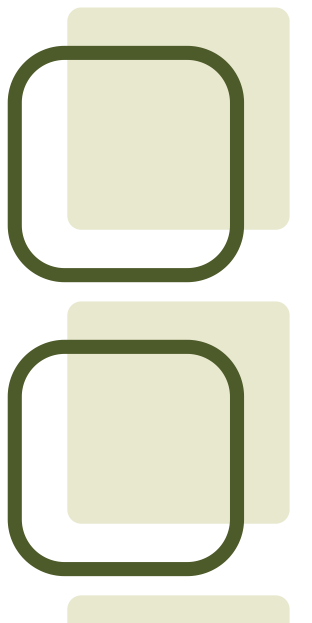

- Available Dimensions: Customizable upon request.
- Available Thicknesses: Customizable upon request.
- Finish: Smooth and uniform surface.
- Uses: Ideal for carpentry, construction, and decoration projects. They are used for framing doors, windows, mirrors, and pictures, adding elegance and solidity to any environment.
- Benefits: Easy installation, design versatility, customizable finish, high moisture resistance.

OurLegacy

Every project that uses our wood tells a story of dedication, passion, and love for nature. From cozy residences to luxurious hotels and commercial spaces, our teak products add a distinctive touch that endures over time.
